European RF Exposure Declaration

In case no RF exposure evaluation or SAR testing was performed, this form should be submitted.

We, (company name): Cardo Systems, LTD.

Address: 811 E. Plano Parkway, suite 110A. Plano TX. 75074, USA.

declare that our brand(s): Bluetooth Headset

Type designation(s) (model(s)): Freecom 1+, Freecom 2+, Freecom 4+, PackTalk Bold, PackTalk Black, Pack Talk Slim

are in compliance with the RF exposure requirements as mandated by the laws of the European Union laid down by Union harmonization Legislation: Directive 2014/53/EU (RED) and corresponding permissible exposure limits laid down in council recommendation 1999/519/EC.

The average equivalent isotropic radiated power (EIRP) is the EIRP of the transmitter, incorporating duty cycle based on 6 minute averaging time. For this device, the following values were obtained¹:

P(EIRP, dBm) =		20	dBm
Duty cycle =	Total transmission time within 6 min, s/360 s	0.05	
P(EIRP, mW) =	(calculation of dBm = $10 * \log [mW]$)	100	mW
P(average, EIRP, mW) =	P(EIRP, mW) * Duty cycle = $100 mW * 0.05 =$	5	mW
P(average, EIRP, mW) =	5		mW

According to the above calculation, the P(average, eirp, mW) is less than 20mW and therefore the product is deemed to comply with EN 62479:2010.
